

IP67 INDUSTRIAL POWER SUPPLY

UNIVERSAL IP67 POWER SUPPLY FOR FIELD USE

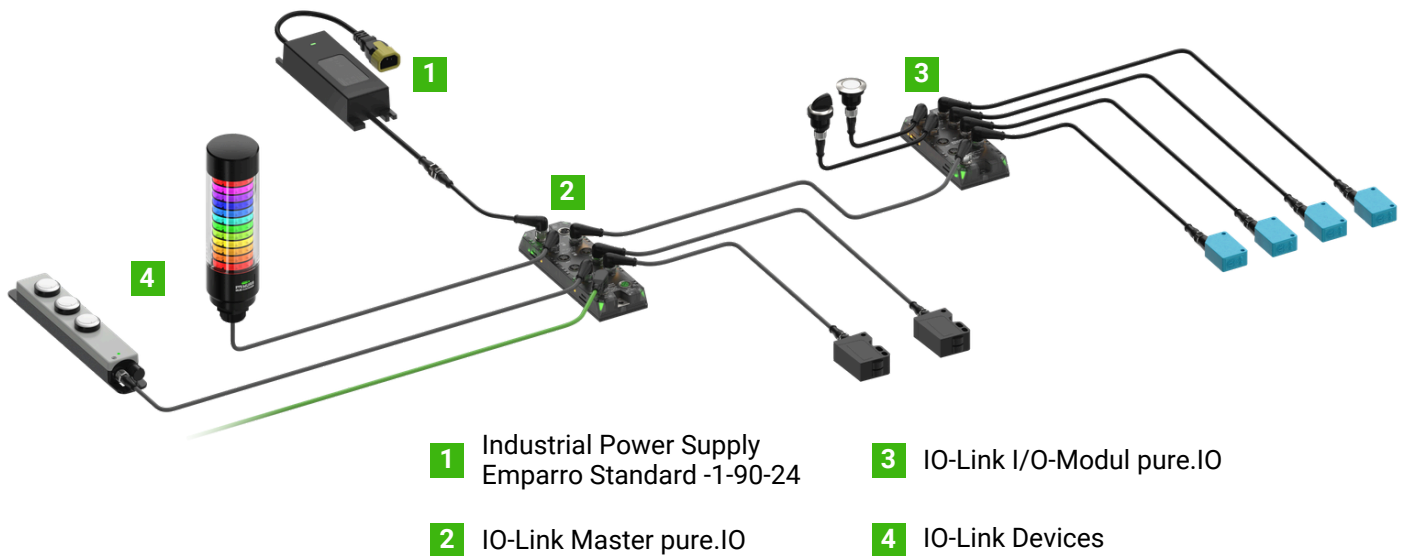

The Emparro67-Standard-1-90-24 power supply delivers reliable power right where you need it: in the field. With IP67 protection* and industrial certification, it is built for harsh industrial environments. Plug & Play allows for quick and easy integration of the power supply. As a universal power supply, it is suitable for a wide variety of industries, technologies, and applications – anywhere the performance specifications match. The power supply is ideal for cost-effective installation concepts where proven quality and reliability matter.

YOUR ADVANTAGES

- Industrially certified
- Robust thanks to IP67 rating
- DC connection via M12 A- and L-coded
- AC connection via universal C14 connector
- Status LED for mains voltage

POWER WHERE IT MATTERS.

ROBUST AND POWERFUL IN OPERATION.

INSTALLATION IN JUST A FEW MINUTES

Thanks to Plug & Play and the pre-assembled M12 connector, no complicated wiring is required.

FIND ERRORS FASTER

The built-in status LED allows for an immediate visual inspection right at the machine and reduces diagnostic time.

WORLDWIDE USAGE

The universal C14 connector reduces the number of variants and simplifies inventory management for international machine designs.

PRODUCT DATA

Protection Class	IP67
AC connection	Universal C14 connector (IP20)
DC connection	M12 A- and L-coded
Status LED	Yes
Art.-No.	9000-10112-0605010
